## WEST WATERFORD.

Death of Emory E. Hovey. Another of our well-known and highly esteemed townsmen has finished his earthly career and we are sorry to chronicle the death of Emory E. Hovey, which occurred at his home early Monday afternoon. The immediate cause of his death was cancer of the liver and he had been suffering from this trouble several years. Mr. Hovey was a type of successful Ver-

mont farmers and occupied a fine homestead where four generations of the Hovey family have had their home. He was the son of William and Lydia (Richardson) Hovey and born in Waterford, Feb. 28, 1841. He was educated at the public schools and left his farm life when the civil war broke out, enlisting in Company K, Fifteenth Vermont Regiment, commanded by Col. Redfield Procter, now Vermont's senior senator. After the war he returned to the farm and married June 1, 1864, Emily, daughter of Orson and Julia Cushman of Waterford. She survives him with six children, Fred E., of San Francisco, Frank O., Stephen R., and Edna E., of New York, Nellie C., wife of Conrad Beck of St. Johnsbury, and Guy W. Hovey, who has been the active manager of the home farm in his father's later years. Mr. Hovey was identified with the Grange, was an active member of Chamberlain Post, No. 1, G. A. R., of St. Johnsbury and has held many of the important town offices. He represented Waterford in the Legislature of 1896 and was one of the leading citizens of the town and ready to help in any good work. The funeral will be held at his late residence Thursday afternoon at 1 o'clock with interment at Passumpsic. Chamberlain Post will attend and conduct the burial service.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

Miss Robson does not share the popular prejudice against the number thirteen. "So far," she said recently, "it has been my lucky number. I was born on the thirteenth of the month; there are thirteen letters in my name; I was graduated on the 13th of June; left New York on the 13th of August to take a sleeping car. I made my first appearance on any stage in San Francisco on the following 13th of September. Thirteen was the lucky number of the leading man in the company with whom I played. I made my first hit in "Arizona" on the 13th. It was the thirteenth day when I made my first New York debut. It was followed the same season by two other debuts, all made on the 13th. I rarely go to a hotel that I do not get room 13."

Maelyn Arbuckle of "The County Chairman" before he became an actor was a lawyer in the high grass district of Texas. He was a warm friend of the great humorist, Bill Nye, and tells many stories of the quaint personality and ready, bubbling wit of the literature. Arbuckle has a copy of the paper which Nye edited in Tombstone, Ariz., and the sheet is typical of Nye-filled with sly digs at his fellow townsmen and with a current of humor hidden in every line. The following advertisement appears in the columns: "Owing to my ill health I will sell at my residence in township 19, range 18, according to the government's survey, one plump raspberry cow, aged eight years. She is of undoubted courage and gives milk frequently. To a man who does not fear death in any form she would be a great boon. She is very much attached to her present home with a stay chain, but she will be sold to any one who will agree to treat her right. She is one-fourth Shorthorn and three-quarters byena. I will also throw in a double barrel shotgun, which goes with her. In May she usually goes away for a week or two and returns with a tall red calf with wobbly legs. Her name is Rose. I would rather sell her to a nonresident."

"Thank you for the suggestion," replied the other gratefully. "We play there next week."

"How is this?" demanded Mr. Purcell a week later. "I am charged 75 cents a plate, while the Oriental High Stepper company, which played here last week, had to pay only 50 cents?"

"My friend," retorted the landlord convincingly, "those other people charged me but 50 cents to see their show; you demanded 75 cents."
